

## Currency Converter Report

### Introduction:

The Currency Converter program is a simple Java application that allows users to convert an amount in Indian Rupees (INR) to four different currencies: Dollar (USD), Euro (EUR), British Pound (GBP), and Japanese Yen (JPY). This report provides an overview of the program's functionality.

### Functionality:

The program begins by prompting the user to enter an amount in INR.

The user is then presented with a menu to choose the currency they want to convert to (USD, EUR, GBP, or JPY).

The program calculates the converted amount based on the chosen currency's exchange rate.

The converted amount and the chosen currency are displayed to the user.

### Exchange Rates:

INR To USD: 0.012

INR To EUR: 0.011

INR To GBD: 0.0097

INR To JPY : 1.78

### Conclusion:

The Currency Converter program provides a straightforward way to convert INR to other major currencies. Users can quickly obtain the equivalent amount in their desired currency by selecting from the available options.
